## Applicant's Statement of Understanding for Clearing & Grubbing and/or Advance/Rough Grading Partial Permit

I, the owner or authorized contractor/agent for the owner, request authorization to proceed with Clearing & Grubbing and/or Advance/Rough Grading for the site/project referenced in order to allow construction to commence while we are awaiting completion of the Site Construction/Improvement Plans and/or the review process for the complete Land Disturbance and/or Building Permit. I understand that if authorization is given I will be proceeding at my own risk, without assurance that a Land Disturbance and/or Building Permit for the entire site work will be granted. Erosion & sediment control measures will be maintained at all times. Permanent vegetation will be established at my expense if the complete land disturbance permit is not issued for any reason. I am releasing all liability, indemnifying and holding harmless St. Louis County, its officers, employees, agents, and assigns for any expense, error or omission resulting from such authorization to start land disturbance work.
