

### **1005.280 Water Mains.**

1. Where the Department determines that an approved public water supply is reasonably accessible or procurable, it shall be made available to each lot within the subdivided area. The developer shall install fire hydrants as determined by the appropriate fire protection district in accordance with the requirements of the Insurance Office of Missouri.
2. In the absence of a public water supply, wells shall be constructed, or a connection to a private water supply system shall be provided, so that an adequate supply of potable water will be available to every lot within the subdivision. The information furnished and the approval of same shall comply with the requirements of the Missouri Department of Natural Resources. The water supply system shall be constructed under the observation and inspection of the Department of Community Health and Medical Care and the Department of Public Works of St. Louis County. (O. No. 12035 - Adopted 4/25/85)
