The poverty rate in Affton is 7.4% compared to 9.2% in St. Louis County.

Poverty rates, 2005-2009

American Community Survey vs. Decennial Census

Prior to 2010, the U.S. Census Bureau used a short-form to collect population counts and basic data and a long-form to collect more detailed data such as education, employment and income. In 2010, the long form was replaced by the American Community Survey (ACS), an annual sampling of households to measure socio-economic characteristics of the U.S. population. Because ACS data are collected continuously, they are not always comparable to data collected from the decennial census. For this reason, the sources of the data in this profile are clearly identified and comparisons between 2010 Census data and 2005-2009 ACS data are avoided.

Prepared by the St. Louis County Department of Planning using census data for Census Designated Places (CDP)—an area identified by name and having a concentration of population, housing, and commercial structures, but not within an incorporated place. A CDP is used for statistical reporting of census data.

Please contact the Department of Planning for questions about this community profile at 314-615-2520 or planning@stlouisco.com.
