Areas of Greatest Need:

A: Areas of Greatest Need St. Louis County has seen a dramatic increase in foreclosure activity from 2006 through 2008. The HUD model used to predict 18 month foreclosure start rates estimated 10,028 foreclosure starts for St. Louis County from January 2007 through June 2008. A review of foreclosure starts (Notices of Appointment of Successor Trustee) from the St. Louis County Recorder of Deeds found 9,840 starts. During that time period, there were 5922 actual foreclosures, so 60% of all foreclosure starts were resulted in a foreclosure. We summarized foreclosures from January 2007 through June 2008 by census tract, and calculated a rate of foreclosures per single family residences (detached homes and condominiums) from 2008 County assessment records. The average rate was 1.68% of homes underwent a foreclosure. The resulting areas included one standard deviation above the average. We consider this data set to be the most important indicator of need, and define greatest need as being above the county average. Maps showing the various data we used to show the need are found in our Amendment to our 2008 Consolidated Plan. Using the indicators, the County identified the area of north county from the City Limits, to the Missouri River to the Norfolk Southern Railroad on the south, following to Lindbergh south to Page, east to 170 then south to Olive east to the city limits. Also the unincorporated area of south county known generally as Lemay. These areas are those considered by St. Louis County to be of greatest need. B. DISTRIBUTION AND USES OF FUNDS Strategies for the Neighborhood Stabilization Program in St. Louis County AREA Strategies Utilizing three different approaches to neighborhood targeting, the County has identified neighborhoods for specific attention under the NSP. A - Acquisition/rehabilitation on a large scale with financing mechanism - Concentrated neighborhood revitalization, rehabilitation of multiple properties to restore marketability and move toward recovery. B - Acquisition/rehabilitation on a scattered site scale with financing mechanism - Selective rehabilitation of individual properties for the purposes of stabilizing a neighborhood otherwise intact and fairly marketable. C - Acquisition/Demolition/Land Banking - For redevelopment of property beyond its functional use and in a blighted condition. Mainly to be utilized in severely distressed neighborhoods C. DEFINITIONS AND DESCRIPTIONS Blighted structure – As stated in section 99.320 of the Missouri Revised Statutes. Affordable rents – 1. A monthly amount not to exceed 30% of 1/12th of the gross annual income of household members, minus an allowance for tenant furnished utilities and other services, as defined by the St. Louis County Housing Authority. 2. Missouri Housing Development Commission's established rent levels. D. LOW INCOME TARGETING The County will use a minimum of 25% of the NSP allocation to provide housing for families at or below 50% AMI E. ACQUISITIONS & RELOCATION The County anticipates demolishing only properties that meet the definition of blighted structure and cannot feasibly be rehabilitated to a marketable condition. Therefore, no low- and moderate – income dwelling units will be demolished under this grant.

Changes made 10/13/10:

The County has committed all of the Federal and State funding allocated through the NSP program. The County utilized the Federal grant funds first and has several “federal” properties ready to rehab beyond our ability to obligate due to cost of the rehabs and lack of funds. Budgets far exceed the amount of funding available for the rehab of the remaining properties acquired under NSP, in an effort to complete the properties on a “first in, first out” method” the County is in the process of transferring funding of properties from our Federal allocation to our State allocation. This process will allow us to complete those properties ready to go. Currently the County has development budgets on hand in excess of the Federal and State allocations by \$4.1 million.
