

**2009**

# ***RESOURCES FOR YOUTH AND FAMILIES***

---

The Saint Louis County Office of Family and Community Services, County Youth Programs is pleased to publish the 2009 Resources for Youth and Families. A new section has been added, Volunteer Opportunities for Youth.

Since this directory was first published in 1988, it has been a valuable resource to school districts, community organizations and individuals. This directory primarily includes organizations that provide services within the geographic area of St. Louis County. We hope the information will help you link young people to the resources they need. Thank you for sharing in our commitment to help the youth of St. Louis County.

Copies of this directory are now available at a cost of \$10.00 each. Please use the order form below.
