Regulations pertaining to the proper handling and disposal of demolition and construction waste per Saint Louis County Waste Management Ordinance, Chapter 607

607.130 Demolition and Construction Waste.

1. No person shall store in or place additional demolition and construction waste in a mobile waste container which is full.
2. The person who has requested that a mobile waste container be located to receive demolition or construction waste or container be removed from a site shall require that a mobile waste container which is full be removed and the waste deposited at an appropriate facility.
3. Demolition and construction waste shall be stored in a secure container or otherwise secured to prevent dispersal by the wind.
4. Demolition and construction waste shall not be stored in a floodplain unless it is stored in a mobile waste container.
5. A mobile waste container is full if no more waste can be added to it without making it unsafe or illegal to transport.

607.250 Design and Construction of Vehicles and Mobile Waste Containers Used to Transport Waste

Persons hauling waste and persons employed by waste haulers shall maintain the vehicles and mobile waste containers used for waste hauling in a safe, clean and sanitary condition. The vehicles and containers used shall be constructed, maintained and operated so as to prevent waste from spilling or blowing from the vehicle or container. The vehicles or containers shall have spill-proof bodies and shall have either covers which are an integral part of the vehicle or container or shall have separate covers with fasteners securing all sides of the cover to the vehicle or container. The covers shall be secured whenever the vehicle or container is transporting waste which is capable of blowing from the vehicle or which in fact does blow from the vehicle. No waste shall be transported in hoppers designed for loading waste into the vehicle or container

607.270 Waste Spilled During Transportation

Waste spilled or blown during the transportation of waste shall be re-collected immediately if such re-collection may be made safely, and as soon as possible otherwise, and placed in the transportation vehicle or mobile waste container by the employees of the waste hauler, or by the person transporting the waste, whether or not such person is engaged in the business of hauling waste and whether or not the vehicle is licensed or required to be licensed under this Chapter.

607.310 Waste Must be Deposited at a Licensed Landfill, Licensed Waste Processing Facility, Licensed Transfer Station, Licensed Compost Facility, or Licensed Yard By-Product Compost Facility

1. No person shall deposit waste on any real estate or permit waste to be deposited on any real estate for which there is no valid and current license, and, if appropriate, renewal license, for the operation of a landfill, waste processing facility, transfer station, compost facility, or yard by-product compost facility issued by the Director, nor shall any person deposit waste on or at any such landfill, waste processing facility, transfer station, compost facility, or yard by-product compost facility in a manner which does not comply with the waste facility plan or material facility plan approved by the Director and the license issued therefor by the Director, nor in a manner which does not comply with the provisions of this Chapter describing the manner or operation of the landfill, waste processing facility, transfer station, compost facility, or yard by-product compost facility. Exception: Yard by-products generated and handled as provided in Section 607.1005, Residential (backyard) by-product composting.

607.865 Application for Generation of Demolition Wastes.

1. Application for the generation of demolition waste (resulting from the destruction/removal of any institutional, commercial, public, industrial or residential structure or building) shall be submitted to the Director by the person possessing or generating the demolition waste. An application fee of fifty dollars (\$50) shall be submitted with each application. Owner occupied residential property owners conducting his/her own demolition/construction activities at said residence shall be exempt from payment of the fifty dollar fee.
2. The application made by the person possessing or generating the demolition waste shall include a description of the waste, estimated volume, transportation, handling, and disposal/processing/transfer station resource recovery/recycling facility location. The application shall also contain such other information as the Director may require, either before or after the initial submission of the application. Quantities, method and documentation of disposal/recycling of special and hazardous wastes shall be included on every application for the demolition of any institutional, commercial, public, or industrial structure or building.
3. In accordance with applicable law, the Director shall approve or disapprove the applications for disposal of demolition waste, and if the applications are approved, may attach reasonable conditions the Director believes necessary in order to protect the public health and welfare.
