

ROUTE 66 PERSON OF THE YEAR

The Will Rogers Awards Banquet is held every year in a different city along Route 66. It is a gathering of Route 66 fans from the United States and many other countries. At this event on June 23, 2006 in Albuquerque, New Mexico, retired Corrections Officer JANE DIPPEL (Jus Svcs) was awarded the "Mother Road Person of the Year".

Jane says she was in "total shock" when she was awarded this honor. "I could not compose myself. Probably for the first time in my life I could not talk." She was in pretty heavy company, right up there with "The National Park Service, Pixar Animation Studios, Bob Audette, and long time 66 Munger Moss Motel, and a great restoration project Cool Springs Camp."

The article that Jane

forwarded to us mentions that Jane is "a lady of incredible charm and boundless enthusiasm for Route 66, its people and places. She is an ardent preservationist, a loyal patron and a traveler unsurpassed."

Jane is indeed a "lady of incredible charm". Her outgoing personality and ready smile were always a constant in Justice Services. It is no surprise that Jane won this award. She has been involved with and has worked diligently for the Route 66 Preservation Foundation for many years.
