INTRODUCTION TO CASCADING STYLE SHEETS

The C.M.P.A. is offering an introductory course in the use of the Cascading Style Sheets for enhancing simple web designs.

This class requires that you have completed the Introduction and Intermediate classes for html.

Learners who have had limited experience in the use of a computer, and those who have found computer use difficult, should **not** take this class. This is a high-level technical class that requires some prior knowledge and computer experience.

Classes are POST certified for seven hours of technical skills training. Through explanations, demonstrations and live practice sessions, it teaches the basics skills for creating style sheets for web pages through use of HTML (Hypertext Markup Language) and CSS standards

Topics include:

- Style Sheets. What are they and how do I use them.
- What are the functions of CSS
- How to create internal and external CCS by use of a text editor.
- A practical introduction into CSS code
- Create and modify CSS code to enhance your website.

The course provides the student with basic introductory instructions for building and enhancing a web page using JavaScript and will be geared for the slower student.

Session: One & Two

Date(s): April 20, 2009 and November 30, 2009
