INTERMEDIATE WEB DESIGN

The C.M.P.A. is offering an introductory course in the use of the HTML language for building simple web designs. **This class assumes some experience in using a computer and Internet Explorer browser.**

It is recommended that student attend the Introduction to Simple Web Design prior to attending this class.

Learners who have had limited experience in the use of a computer, and those who have found computer use difficult, should attend the Introduction to Computers Course and Windows 98 before attending this class, and gain some experience browsing the internet.

Classes are POST certified for eight hours of technical skills training. Through explanations, demonstrations and live practice sessions, it teaches the basics skills for creating a simple web page through use of HTML (Hypertext Markup Language).

Topics include:

- Review of Basic HTML commands.
- Using Tables and Frames within your web page.
- Add Images, Image Maps and Lists to your web page
- Adding forms to your web page
- Introduce you to JavaScript
- Adding Multimedia to your web page.

The course provides the student with basic instructions for building and maintaining a simple web page design and will be geared for the slower student.
