

# 2020 Master Pollinator Steward

Studies show that pollinator populations are in decline because of a loss of feeding and nesting habitats, pollution and the misuse of pesticides. Learn how to protect our agricultural economy and food supply with the Master Pollinator Steward program.

## 6 Sessions

- Feb 26**     **Insects**  
Bob Marquis, PhD
- March 4**     **The biology of bees: behavior & life history**
